

SCHRACK INTERNATIONAL

■ SCHRACK IN EVERYDAY LIFE

■ SCHRACK SOLUTIONS FOR HIGH-RISE BUILDINGS

The boom in high-rise constructions with many residential units has gradually been losing steam over the last few years. But there is still a large amount of building activity around these buildings. Renovations, improvements to energy efficiency and increasing residential areas by combining separate apartments are only some of the activities carried out by owners and housing cooperatives. The new standards on installing security lighting and fire safety systems also need to be implemented.

■ COMFORT & SAFETY

SCHRACK offers not only a multitude of solutions for modern [ENERGY MANAGEMENT](#), but also for increased [SAFETY TECHNOLOGY](#), e.g. security lighting and audio/video intercom systems.
