

SCHRACK TECHNIK INTERNATIONAL

SCHRACK LANCALC

A configuration, calculation and offer tool for simple project planning and offering SCHRACK data network solutions.

SCHRACK INFO

SCHRACK LANCALC is an online tool for simple configuration of Schrack data network solutions. After entering the installation parameters such as the number of outlets, the required category, etc. the software creates a part list of the required units, which is rendered as a printout or file for straightforward ordering and the creation of tailor-made offers to the customer.

FOR MORE INFORMATION AND YOUR ONLINE ACCESS CODE, PLEASE CONTACT YOUR LOCAL [SCHRACK CUSTOMER REPRESENTATIVE](#).
