

Data Sheet for Article: BD836630-A

# RCCB 63A, 4-pole, 300mA, Type B, for heat pumps

Series BD-series, Product category type B, for applications with heat pumps, Product standard EN 62423, EN 61008, back-up fuse proof

## Technical Data

|                                    |                                                     |
|------------------------------------|-----------------------------------------------------|
| Product category                   | type B                                              |
| Type                               | R (röntgenversion)<br>U (converterproof)<br>delayed |
| Rated current (A)                  | 63                                                  |
| Rated sensitivity $I\Delta n$ (mA) | 300                                                 |
| Poles                              | 4                                                   |
| Power loss (W)                     | 14,60                                               |
